About Us

Upon being recognised As a well-established, Contract cleaning service provider, Sahara Cleaning Services Ltd is keen to remind our employees and customers past and present , of our humble beginnings as a small family run business built on the principles of honesty, reliability and with personal relationships at the fore.

While identifying a need to provide a more comprehensive and professional cleaning service to the commercial sector, Sahara cleaning services have grown into a successful market leader Contract cleaning company in the Midlands, but our home-grown principles remain. Our MD and senior management still help on site whenever needed if staff is absent or on holiday cover. He personally visits and speaks to all clients on regular basis throughout the month.

We're about more than just cleaning. We're about developing relationships and partnerships with our clients and working with them to find solutions to their problems.

Our Mission

Sahara cleaning services is committed to providing the highest quality commercial cleaning service available by exceeding the expectations of our clients, as well as their employees and visitors to their premises or facilities through continuous improvements in Quality, Services and Productivity. Taking that extra stride in making sure all our staff is handpicked by the senior management.

Management: Our in-house trained and sourced management techniques , ensures that our team adheres to the following four major management functions.

Planning: Defining goals, establishing strategy and developing bespoke sub-plans to coordinate activities through a flexible management approach.

Organising: Determining what needs to be done, how it will be done and who is to do it.

Leading: Directing and motivating all relevant stakeholders through in-house and bespoke on-site training, employee suggestions and conflict resolution.

Controlling: Regular audits and maintenance activities are executed to ensure that tasks are accomplished as planned, with outcomes reviewed and evaluated with the aim of continuous improvement. Regular senior management visits to all client developments/sites.

“

Sustainability *Statement*

Our Vision for Sustainability:

Humanity is awakening to the biodiversity and climate crises. Our vision at Sahara Cleaning Services (Midlands) Ltd is of a business world that satisfies the needs of society whilst working in harmony with the planet and its life supporting systems. By pursuing this vision we are helping to create a bright and secure future for all.

We recognise the impact our activities are having on the environment and are committed to developing the most sustainable operations possible.

We have reacted to the monumental world developments around the need for sustainability, that occurred in 2022, by actively working towards ISO14001 accreditation and implementing a comprehensive environmental management system.

Our policies in relation to protecting the environment and sustainability are to:

- Minimise the impact of our activities on the environment.
- Commit to embracing the United Nations Sustainable Development Goals.
- Continually review our operations in accordance with the latest national and international developments in environmental governance and sustainable aims, such as the 2022 Conferences of the Parties to the UN Conventions on Biodiversity and Climate Change (COP 15 and COP 27).
- Implement best practice by adopting the four R's: Rethink, Reduce, Reuse and Recycle, to promote sustainable operations.
- Promote the protection of the environment in our business communications.

We aim to ensure that we meet the aims of our sustainability policy by:

- Minimising waste through efficient operations and by recycling electrical items, metals, paper, plastic and other materials wherever possible.
- Minimising paper waste through cloud storage and controlling the level of printed material.
- Disposing of waste that cannot be recycled by safe means and in accordance with environmental regulations.
- Reducing water usage wherever possible.
- Choosing eco-friendly and biological cleaning products and suppliers that minimise our impact on the environment, through COSHH and regular reviews.
- Conducting and reviewing environmental risk assessments for all operations and client sites.
- Reviewing our operations regularly so as to embrace the latest technologies, equipment and practices to look after the world in which we work and further reduce our carbon footprint.
- Actively seeking business relations that are committed to protecting the environment and encouraging our existing suppliers and customers to adopt sustainable practices that protect the environment.
- Conducting logistical planning to ensure that all transport operations are as efficient as possible and to utilise vehicle sharing and public transport wherever possible and practicable. We are in the process of reducing our carbon footprint further by replacing diesel powered vehicles with a low emission fleet.
- Using and maintaining equipment that is energy efficient and that minimises our carbon footprint.
- Conducting regular guidance and training to maintains a high level of awareness of environmental responsibilities throughout our work force.

Carpet Cleaning

SAHARA
CLEANING SERVICES

Give your carpet a new lease of life by booking professional carpet cleaning by Sahara Cleaning Services. We provide high-quality carpet cleaning services for small and large businesses to extend the life of your carpets and maintain optimum hygiene throughout your premises.

Carpets require extensive cleaning regularly to prevent the fibres from becoming dull over time. Hair, dirt, food, and other particles can become entrapped within the carpet fibres which causes bacteria to grow and unpleasant odours.

Our team of professionally trained carpet cleaners can travel anywhere between Wolverhampton to Birmingham, Warwickshire and Manchester to give even the grimeiest of carpets a high-quality deep steam clean with impressive results. This method releases and removes debris from deep within the fibres, restores buoyancy, and leaves it smelling fresh.

The carpet cleaning solution used is low-moisture, dry-clean and is also non-toxic so rest assured, will not cause any damage to your carpets, or harm children and pets.

Alongside carpets, we also clean hardwood and wooden flooring – firstly by vacuuming any pre-existing dirt and cleaning the area with our non-scratch mops and specialist machinery. In turn, this can extend the lifespan of your floor for many years to come.

We can provide carpet cleaning services for a whole host of industries, including:

- **Offices**
- **Shops**
- **Business premises**
- **Nursing homes**
- **Schools/universities/colleges**
- **Hotels and restaurants**
- **Venues (theatres and concert halls)**
- **Restaurants/bars/clubs**

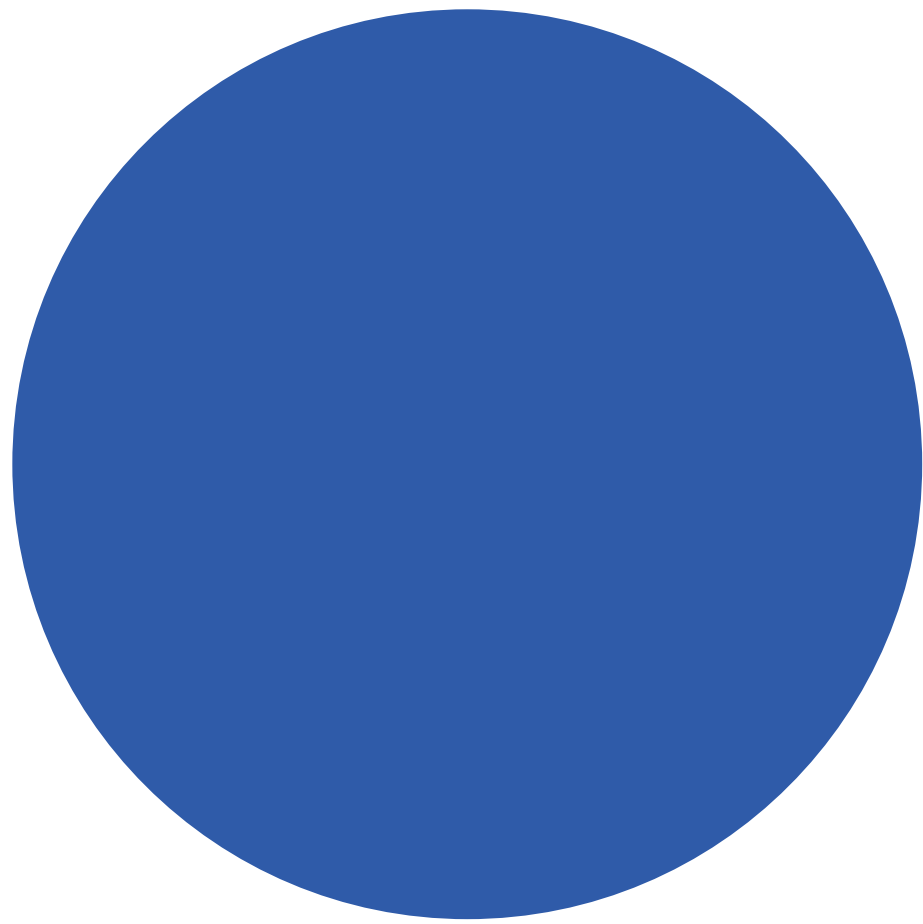

The entire process takes no longer than two hours - depending on the size of the area and the carpet type. Once the procedure is complete, you will be left with a bright, fresh carpet that looks and feels as good as new.

Warehouse & Factory Premises

SAHARA
CLEANING SERVICES

Keeping your warehouse safe, tidy, and hygienic during your business' working hours can be a challenge. However, regular professional warehouse cleaning is a necessity to maintain the health and well-being of your staff, as well as the quality of your products. Inadequate sanitation of your premises could put you at risk of failing a health and safety inspection, due to the risk of product contamination and potentially putting your consumers in danger.

Although warehouses typically operate on a 24-hour basis to maintain the supply chain of the business; Sahara Cleaning Services can carry out the decontamination and cleanliness of your warehouse during quieter periods of operation. We understand that your warehouse operations are required to continue ticking over like clockwork, therefore, we strive to achieve quick turnaround times for minimal disruption.

Our expert team will carry out a comprehensive risk assessment to ensure that each task we carry out is in strict keeping with health and safety regulations. Our team is also qualified to dispose of used materials and store materials correctly, to prevent the cross-contamination of bacteria within your premises.

Our warehouse and factory premises cleaning service includes:

- **De-greasing of flooring and machinery**
- **Deep cleaning of machinery**
- **Quality cleaning of internal and external structures**
- **Washroom and staff room maintenance**
- **Cleaning of cafeterias and kitchens**
- **Air filtration and circulation cleaning**

We operate on a nationwide basis and specifically lend our warehouse cleaning services to clients in the West Midlands region, including Wolverhampton, Birmingham, and Warwickshire, as well as Northern regions of the UK such as Manchester and Liverpool.

Window Cleaning

SAHARA
CLEANING SERVICES

Window Cleaning

At Sahara Cleaning Services, we provide specialist window cleaning services to corporate clients in the West Midlands and beyond – including the regions of Wolverhampton, Shropshire, and Warwickshire. We offer a vast range of cleaning services to keep the external of your premises sparkling clean.

Commercial Window Cleaning

We specialise in commercial window cleaning for clients managing apartment block developments. Rest -assured that no task is too big or small for us to take on – so whether you're looking for us to clean an eight-story apartment block, or a ground-level premises, we're the team to call on. We provide a commercial window cleaning service tailored to the customer's requirements.

Our expert team uses purified-water-fed pole systems, which extend 60 feet from the ground, without having to climb ladders. This not only guarantees the safety of our specialist window cleaners, but also provides impeccable results – no scratches, no smears, or no marks.

Gutter Cleaning

Did you know that blocked gutters can lead to leaks, dampness, and mold growth within the interior of your premises? Prevent these issues by booking a gutter cleaning service. Gutters are typically overflowing with leaves and debris that leads to blockages – particularly during the winter months. Our specialist team removes waste safely and efficiently using our state-of-the-art cleaning machine.

Conservatory Roof Cleaning

If your business premises features a conservatory roof, you may notice that it has started to form a layer of debris, moss, and algae. Damaged conservatory roofs can be expensive to repair when damaged, but you can prevent future issues – such as leaks and UPVC discolouring - by hiring a professional roof cleaner. We use our purified reach and wash system to reach even the most difficult of areas.

Pressure Washing

Over time, driveways, and patio areas can build up with debris which impacts the curb appeal of your business premises. We can give it a new lease of life by using our high-pressure jet wash machine. This can be used to clean various substances, including:

- **Tarmac**
- **Block paving**
- **Slabbing**
- **Stone**
- **Concrete**
